Conference led the way on fossil fuel divestment

The United Church of Christ's General Synod in July voted in favor of a plan to move the denomination's investments away from fossil fuel - an issue that was initially brought to Synod by the Massachusetts Conference Board of Directors and Minister and President Jim Antal.

The Massachusetts Conference Board voted last December to bring the resolution to Synod, an effort that was later supported by 10 other Conferences and the Mass. Conference Annual Meeting.

"The UCC is a church of historic firsts. The Synod added another 'first' when it became the first national faith communion to vote to divest from fossil fuel companies," Antal said.
