

Announcing a new resource:

The MACUCC Church Communicators' Wiki: macuccwiki.org

This wiki is home to a HOST of resources related to a variety of different aspects of church communication.

Some current resources:

Using the new MACUCC Wordpress Theme

A series of tutorials on setting up a new website using a Wordpress theme specifically designed for use by MACUCC churches (download the theme from the wiki).

Setting up a Facebook Presence for Your Church

For Facebook novices and regular users alike, this article provides a walkthrough on setting up a church Facebook Page and maintaining it.

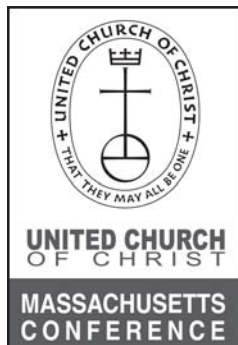

E-newsletters

Many church newsletters today are stuck in limbo - designed for print, but distributed electronically for the recipients to print out and read. This article talks about alternatives.

Why a wiki?

Communication technology is constantly changing, so any resource about communication has to be flexible and ready to change as well. This wiki - built on the same application that powers Wikipedia - allows users not only to read content but also to add or edit content if they wish.

The Commission on Communication of the Massachusetts Conference invites everyone involved in church communication to share their own expertise on macuccwiki.org.

Sponsored by the Commission on Communication for the Massachusetts Conference, United Church of Christ. Made possible by contributions to Our Church's Wider Mission Basic Support and Fellowship Dues.
